RISK MATRIX					
Probability	Severity				
	5-Catastrophic	4 Critical	3 Major	2 Minor	1 Negligible
5-Frequent	25	20	15	10	5
4-Occasional	20	16	12	8	4
3-Major	15	12	9	6	3
2-Minor	10	8	6	4	2
1-Negligible	5	4	3	2	1

Probability/Likelihood	Definition	Value
Frequent	Likely to occur many times Has occurred frequently	5
Occasional	Likely to occur sometimes Has occurred infrequently	4
Remote	Unlikely to occur, but possible Has occurred rarely	3
Improbable	Very unlikely to occur Not known to have occurred	2
Extremely Improbable	Almost inconceivable that event will happen	1

Severity	Definition	Value
Catastrophic	Fatality or disabling injury	5
Critical/Hazardous	Serious injury/illness or Dangerous Occurrence (Refer to RIDDOR Guidance)	4
Major	"3-Day" injury or illness	3
Minor	Minor injury or illness (first-aid only)	2
Negligible	No injury accident or incident	1

<b>Venue: Cadwell Park</b>		<b>Event: Motorcycle Circuit Test Weekend</b>
<b>ACU Permit No:</b> • ACU59211	<b>Date:</b> 18 <sup>th</sup> 19 <sup>th</sup> July 2020	<b>Risk Assessment carried out by:</b> S Bostock (NG Road Racing) Gary Thompson (Auto Cycle Union)

## HAZARDS ASSOCIATED WITH ACU PERMITTED EVENTS TAKING PLACE DURING THE COVID-19 CRISIS

### SAFETY ASSESSMENT STATEMENT

1. This Risk Assessment has been produced which outlines hazards associated with motorcycle sport events taking place in a Covid-19 environment.
2. The Risk Assessment takes into consideration hazards to competitors/officials/marshals/teams/mechanics/families/spectators during a period once UK Government advice/guidance allows for Lockdown restrictions to be lifted.
3. The Risk Assessment allows for motorcycle sport events to take place in a responsible, controlled, and safe manner, but at all times taking into consideration government advice/guidance published or issued at any time.
4. Government Advice / guidance will take precedent and will always be followed by ACU Ltd.
5. Organising Clubs may wish to adopt this risk assessment as their own and in doing so may add additional measures to suit local needs. If using this risk assessment, an Organising Club accepts responsibility for its content and accepts the control measures that have been identified.

### RISK ASSESSMENT

Given the global spread of Coronavirus, consideration has to be given to what will be the 'new normal'. It is clear that for quite some time to come, the way motorcycle sport events were conducted prior to Covid-19 will not be possible for some time to come, if ever. Consideration has therefore been given to the following:

**Travel to/from the Circuit/Venue.** Travel to and from the circuit/venue would be dependent on current UK Government advice / guidance in place at the time.

**Signage.** Signage needs to be prominent at the entrance to the venue and in and around the paddock to emphasise social distancing measures. Signage should also be displayed in the Race Office, Race Control and Technical Bay to emphasise social distancing protocol.

**Accommodation at / around the Circuit/Venue.** Hotels / B&Bs / other accommodation would be following UK Government advice / regulations. As per current UK Government guidance, it is unlikely Hotels etc will be open for business for some time, therefore competitors / Officials should plan on using own camper vans or travelling to the Circuit on a daily basis. Dependent on UK Government advice / guidance, Race Organisers may consider running one day events in the first instance. Camper vans to be spaced out in the Paddock to observe safe distancing measures.

**Signing On.** Signing on should take place with current social distance measures in mind (social distancing measures issued by the UK Government currently stipulate a 2-metre distance between each person). Circuit Owners / Venues should provide additional protection for Race Office personnel by providing transparent Perspex shields as seen at Supermarkets in front of Cashiers. Race Office staff to also be provided with face masks / gloves by the Race Organiser. A wet signature is not required at Signing On. A process is put in place which allows Race Administration staff to verbally ask each competitor if they agree to the standard declaration (*which could be posted in large letter format on the counter*) and then tick a box next to that competitor's name on the Signing On sheet. It is important that more than one person witnesses the individual agreeing to the standard declaration. Alternatively, if Organisers want to sign on competitors in the normal manner, then they should make provision to obtain disposable pens for competitors to sign on or ensure competitors are aware that they are required to bring a pen with them to sign on at the Race Office. Individual slips of paper (complimentary slip size) will be required to be signed by each individual to state the competitor agrees with the requisite declarations as defined on the Entry Form for the event. The slips of paper are then deposited into a box which is to be sealed once Signing On is complete. The box is to remain sealed for a period of four days which will be enough time for any traces of Coronavirus to be eradicated. Race Office staff are not to handle the competitors' licence. Riders should hold the licence sufficiently for the Race Office staff to be able to view the photograph and turn the licence on the flip side so the Race Office staff can view the reverse of the licence.

**Technical Inspection (Race Day Only).** Machines/clothing/helmets etc to be placed in a designated area as indicated by the Technical Official, the competitor then steps away to a safe distance to allow the Technical Official to carry out the inspection. Technical Officials to wear face masks and gloves. Competitors should also wipe their clothing/helmets with a disinfectant wipe/cloth before taking their kit for Technical Inspection. Signing of the necessary declarations as per the measures outlined above for Signing On. It is important that existing protocols relating to stickers being placed on the machine to notify the machine has passed through Technical Inspection remains for a number of reasons. A suggestion is as follows, this can be adapted to suit individual Club needs, but the principle remains the same:

Each official gets a sheet of stickers (nobody else touches that sheet). That same official checks the bike on its stand and when he is happy puts the sticker on the bike and signs the card.

The sticker gets a quick wipe with an anti-bacterial wipe and the rider gets his/her clothing inspected and the process is repeated for the helmet. The card is signed, wiped clean and the rider picks it up from the table.

At signing on, the rider shows both sides of the card to the Race Admin team and when they are happy the rider puts it in the box.

Race Admin Team ask the rider if he/she understands and accepts the conditions on the Sign On form and ticks the box alongside their name on the Signing On sheet.

Practice Permit is wiped and placed on the table for the rider to present at the assembly Area. At the Assembly Area the rider shows the card (as proof that they have gone through all processes) and puts the card in another box.

Neither box of cards needs to be touched by anyone unless the Technical Card is required after a serious incident. Filing and collating can be done after the 72 hour lifespan on paper of the virus has expired.

If that happens, one person with protective gloves can go through the cards and select the correct Tech Card for the file.

**Parc Ferme (Race Day Only).** If space allows, Parc Ferme could be operated post-race with machines spaced out. Access/egress to Parc Ferme would have to be manually policed allowing competitors / mechanics in to collect bikes observing social distancing measures. Alternatively, Parc Ferme conditions could be cancelled, and Technical Officials inspect the top three of each race observing in Technical Bay.

**Garages (Not Applicable to Cadwell Park, Castle Combe or Pembrey).** Allocation of garage space is the responsibility of Race Organisers. Garage space can be different in size dependent on venue, so Organisers should allocate competitors garage space taking into consideration at all times existing Social Distancing measures as dictated by the UK Government.

**Marshals.** Each Marshal point must observe social distancing measures. Marshals to be given suitable PPE (face masks / gloves) which is to be utilised when dealing with an incident. Hand Sanitizers/hand gel to be made available at each Marshal point. Organisers should always ensure that Marshals are conscious of and satisfied with their own safety. In the event of an incident, this may result in more red flag incidents which would cause more delays to the Race Schedule.

**Medics.** As above with the Marshals, Medics would need to observe social distancing and be equipped with PPE (face masks / visors / gloves).

**On Track Activity.** Start Line Officials to observe social distancing measures and be equipped with appropriate PPE (face masks / gloves).

**Race Control Staff.** To be equipped with suitable PPE (face masks / gloves) and to observe social distancing measures. Race Control to be well ventilated to allow for fresh air to circulate.

**Food Outlets.** In accordance with UK Government Advice/Guidance, Venue / Circuit owners may wish to make the necessary arrangements to safely operate on-site catering facilities. Likewise, Venue/Circuit Owners may want to invite external food outlets onto their premises. It is recommended that the Vendor provides a risk assessment to the Venue/Circuit Owner to demonstrate he is operating in accordance with up to date government regulations.

**Washroom / Toilets.** Entrance to washroom / toilet facilities to be monitored to allow personnel in to observe social distancing measures. Signage should be displayed to emphasise control measures in place regarding washroom / toilet facilities.

**ACU Competition Licence.** Every rider wanting to compete in ACU permitted competition requires an annual ACU competition licence and as such needs to apply for a licence using the relevant ACU Competition licence form. For Road Racing, a competitor is required to undertake an eyesight test every three years. When completing the competition licence form, the rider must complete Section 3 – Medical Information. In this section, the rider should declare any ongoing medical issues. In doing so, the rider may well then be required to seek a Medical Report from a Doctor. Any competitor over the age of 70 needs to see a Doctor to obtain a Medical Report. In light of Covid-19, for the time-being there is no change to the current medical requirements. The self-declaration (section 3) and if required, Doctors Report (Section 5) is completed to ensure the competitor can suitably control a motorcycle. There may be further restrictions in place regarding Covid-19 in accordance with UK Government Advice / Guidance regarding Testing and Anti-Body testing once that has been established and published.

**Sidecar Crews.** Sidecar drivers and passengers can be parked adjacent to each other but must adhere to social distancing measures in place. They should only come together in close proximity once they have their helmets and gloves on. Tools and other accessories should not be shared.

**Test Days.** Control measures to be put in place for Test Days are the same as outlined in this Risk Assessment. In accordance with current UK Government advice, it is important children have as many chances to be as active as possible. Youth participation can now be included in Test Days in accordance with existing Road Race Standing Regulations. Accompanying parents / legal guardian should consider Social Distancing measures.
